

ALUMINUM UMBRELLAS

COMMERCIAL MARKET UMBRELLAS

Our heavy duty Aluminum Rib Umbrella comes in a variety of different frame finishes to compliment a variety of decors. Paired with our made to order canopies, these will surely fit your outdoor restaurant, cafe, pool area or hotel! The heavy duty aluminum frame and ribs make this collection one of our strongest freestanding umbrellas to hold up against commercial environments. The push up lift system helps strengthen the frame for less user error and damage. No plastic or resin is used for any of the structural components, including the exotically styled hub and runner, the understated finial. A robust aluminum mast and canopy built without sized components and stainless steel hardware make for an unmistakable performance product that stands clear from the crowd as a refined element of modern decor.
