

# BISTRO METAL SEATING

Our *Bistro Metal Seating* utilizes what Gustave Eiffel called the "ideas material." This furniture consists of top-grade steel and aluminum exclusively or in combination with tear-proof Outdoor Technical Fabric, PVC-coated polyester or rot-proof wood.

All frames undergo several stages of rust-resistance followed by two paint stages: a High Protection Index, 13 treatments in 13 stages, and a Very High Protection Index 22. The paint used is a DuPont® powder, 100% polyester, anti-UV and is deposited electrostatically on the furniture for optimal coverage, then baked at 193°F.

Your frame comes with a 1 year structural warranty - limited to original end use.
