

EUROPEAN CAFE

A well crafted and unique collection, designed and hand-forged at our factory in Europe by our 'old world' artisans.

A 4th generation 'blacksmith' directs the factory where the artistic talents for this type of work have been handed down from generation to generation.

The drawn steel frames are treated for rust-resistance in a multi-stage proprietary process, prior to receiving a specially formulated, scratch resistant, exterior furniture grade powder coating.

The 100% polyester baked anti-UV powder coating is the highest quality available and specially formulated by the world's premier producer of powder coatings.

We incorporate design elements to ensure that our products are not just good looking but functional and long lasting, such as the colored carriage bolts that secure the slats to our frames.

Chair & table slats come standard in African Teak. Chestnut is available as a special order.

Folding Chairs

Café Side Chair
#5504
16"w x 15"d x 33"h

Café Armchair
