Say goodbye to Wobbly Tables; our No Rock Table Base Collection is the perfect solution for restaurants and cafes with uneven surfaces. Restaurant table instability has been a problem for many sidewalk cafes, stone, brick and paver patios, and general uneven areas. Our technology enables the table to re-adjust and self-stabilize itself in these scenarios fixing the age old problem! We have several styles and sizes to choose from, available for interior or exterior use.

Shop our collection now and we'll take your tables to a **whole other level!**
